Confidentiality Statement

The information contained within this document is confidential between Hala Supply Chain Services Co. (HALA SCS) and Tahakom.

This document is prepared and published by HALA SCS exclusively for the use by Tahakom employees on a need-to-know basis.

It contains HALA SCS confidential and proprietary information, and, under no circumstances should this document, or a copy, in any form, be given or any of its contents disclosed to anyone who is not an authorized recipient.

1. Executive Summary

Hala Supply Chain Services (Hala SCS) is pleased to submit this technical proposal in response to Tahakom's RFP No. 0101000435 for Heavy Logistics Management. This proposal outlines our capabilities, operational model, and compliance with Tahakom's requirements.

Our aim is to provide Tahakom with secure, efficient, and nationwide logistics services that enable Tahakom to serve its customers better while aligning with Saudi Vision 2030. The proposal demonstrates our experience, fleet readiness, advanced technology integration, and commitment to local content development.

The sections that follow detail our company profile, value proposition, service delivery approach, and compliance with Tahakom's technical and operational requirements.

2. Company Profile & Experience

Hala SCS is a licensed and experienced logistics provider with over 20 years of extensive experience, operating across the Kingdom of Saudi Arabia. We have successfully executed projects involving the transportation of heavy-duty, oversized, and sensitive cargo, working with both government and private clients.

Our financial stability, operational structure, and regulatory compliance enable us to deliver secure and scalable logistics services nationwide.

Geographic Locations

3. Hala SCS Value Proposition

“How can Hala SCS help Tahakom serve its customers better?”

We deliver this through four interconnected pillars:

- 1. Service Excellence** – Nationwide coverage, 24/7 Command & Control, SLA adherence.
- 2. Technology Integration** – Real-time GPS tracking, AWB automation, POD systems, full integration with Tahakom.
- 3. Risk & Security Leadership** – Cargo confidentiality, driver screening, GPS monitoring, Civil Defense compliance.
- 4. Sustainability & Vision 2030 Alignment** – Clean fuel roadmap, ESG practices, carbon reduction, Vision 2030 alignment, Local Content.

4. Scope of Work Delivery Approach

- 4.1 Hala SCS will provide end-to-end heavy logistics management services across all Tahakom facilities and designated addresses in KSA.
- 4.2 Our operational model covers daily and ad-hoc service requirements supported by a 24/7 command and control center.
- 4.3 The process includes secure collection, verification of cargo, loading/unloading, safe transport, and electronic proof of delivery.
- 4.4 Pricing will follow per trip/route/load category for predictable cost control.
- 4.5 Coverage includes remote and hard-to-reach areas, ensuring service continuity throughout the Kingdom.

5. Security & Risk Management

- 5.1 Hala SCS facilities (warehouses and secure yards) comply fully with Tahakom's requirements for storage of loaded vehicles and materials.
- 4.2 All depots are licensed and equipped with 24/7 CCTV monitoring, manned security, pest control logs, smoke detection, sprinkler systems, and fire suppression equipment.
- 4.3 Emergency signage and alarms are in place throughout.
- 4.4 These facilities are integrated into Hala's Command & Control center for continuous monitoring and risk management.
- 5.2 All logistics operations follow a robust security framework.
- 5.2 Cargo confidentiality is strictly maintained, with drivers screened and cleared for security.
- 5.3 Vehicles are GPS-enabled and monitored from our control center.
- 5.4 Cargo is sealed with serialized barcoded tags, and secure storage protocols prevent unattended parking.
- 5.5 We also follow Civil Defense and Fire Safety compliance.
- 5.6 Risk management includes prevention, mitigation, incident response, and alignment with Tahakom's security policies.

6. Human Resources

- 6.1 Hala SCS employs a skilled logistics workforce including drivers, supervisors, and coordinators.
- 6.2 We provide an organizational chart and detailed job descriptions for all positions.
- 6.3 Our workforce complies with Saudi labor regulations, including GOSI, sponsorship, and medical insurance.
- 6.4 Drivers undergo continuous training in safety, SOPs, security, and emergency response.
- 6.5 A dedicated single point of contact will liaise with Tahakom on all matters.
- 6.6 Each vehicle and facility are equipped with mandatory safety equipment including first aid kits, fire extinguishers, and backup emergency lighting. this ensures full alignment with civil defence and rfp safety requirements.

7. Certifications, Licensing & Compliance

- 7.1 Hala SCS holds all relevant commercial registration, municipal, and Civil Defense Licenses to operate logistics services in Saudi Arabia.
- 7.3 **Fire & Safety Systems:** Full compliance with NFPA standards
 - 7.3.1 Certifications:
 - **ISO 9001** (Quality)
 - **ISO 45001** (Safety)
 - **Inventory Management:** FIFO methodology, real-time tracking.
- 7.4 We maintain strict adherence to Saudi regulations and international logistics best practices.

8. Standard Operating Procedures (SOPs)

- 8.1 Our documented SOPs ensure consistent and reliable operations.
- 8.2 These include Billing & Invoicing SOP, Receiving & Verification SOP, Delivery & Pickup SOP, Damage Handling SOP, Quality Control SOP, Load Management SOP, and Emergency SOPs.
- 8.3 Each SOP is aligned with Tahakom's SLA requirements to guarantee accuracy, detailed process maps for billing, receiving, delivery, damage handling and escalation matrices are attached in appendices to demonstrate transparency of lead times and responsibilities.

9. Technology & Systems

- 9.1 We deploy a digital logistics platform providing full visibility across the supply chain.
- 9.2 Automated Air Waybill (AWB) solutions ensure shipment traceability.
- 9.3 Electronic Proof of Delivery (POD) is captured with digital signatures and photos.
- 9.4 GPS tracking provides real-time location and performance monitoring.
- 9.5 Our systems integrate seamlessly with Tahakom's VPC and enterprise platforms via secure APIs.
- 9.6 Dashboards deliver SLA compliance reports, analytics, and incident alerts.

10. Sustainability & Vision 2030 Alignment

- 10.1 Hala SCS is committed to sustainable logistics.
- 10.2 We are implementing a roadmap for clean fuel adoption and carbon footprint reduction.
- 10.3 Our initiatives include waste reduction, energy-efficient fleet management, and greenhouse gas offset programs.
- 10.4 This directly supports Saudi Vision 2030 objectives in smart mobility and environmental responsibility.

11. Service Level Agreement (SLA) Commitment

- 11.1 We commit to Tahakom's SLA requirements:
 - a. Express pickup within 2 hours.
 - b. Normal pickup within 24 hours.
 - c. Warehouse pickup window within 4 hours.
 - d. Complaint resolution within 3 days.
- 11.2 Hala SCS will provide an SLA matrix signed and acknowledged to match RFP appendix, covering express (2h), standard (24h), and complaint resolution (3 days).

All SLA compliance will be tracked via real-time systems, with monthly performance reports provided to Tahakom.

12. Penalties & Performance Assurance

- 12.1 We acknowledge and accept Tahakom's penalty framework, including SAR 2,500 per day delays, 5% PO liquidated damages, and SLA non-compliance penalties.
- 12.2 Our performance monitoring uses KPIs such as on-time delivery %, express service compliance, and cargo integrity.
- 12.3 Corrective action protocols ensure immediate resolution of issues to maintain service quality.
- 12.4 We acknowledge penalty structure including 0.3% daily deduction up to 10% of PO value, and commit to express delivery at no extra cost if standard pickup is missed.

13. Exit Strategy

- 13.1 Hala SCS will submit an exit plan within 3-months of award for Tahakom approval.
 - 13.2 The plan ensures a smooth transition to Tahakom or a third-party operator without service interruption.
 - 13.3 It will cover workforce reassignment, data transfer, asset handover, and process continuity.
- Our commitment is to ensure zero disruption during transition.

14. Local Content (LCGPA)

- 14.1 We comply with Local Content & Government Procurement Authority (LCGPA)

- requirements.
- 14.2 We have a roadmap for Saudization, workforce localization, and supplier development.
 - 14.3 All procurement follows NPML requirements.
 - 14.4 This ensures Tahakom benefits from strong alignment with Vision 2030 and national priorities.
 - 14.5 Hala SCS has achieved a local content scope of **55.22%** for the financial year 2024/2025.

15. Risk Management & Business Continuity

- 15.1 Our risk management framework covers operational, environmental, and security risks. Mitigation strategies include backup fleet deployment, alternative routing, and all-risk cargo insurance.
- 15.2 We maintain a Business Continuity Plan (BCP) and Disaster Recovery Plan (DRP) to ensure uninterrupted services during crises. These plans are tested regularly to guarantee resilience.

16. Fleet Capability & Coverage

- 16.1 Detailed description of fleet composition, age profile, and nationwide coverage map.

17. Express Services Delivery Model

- 17.1 Dedicated resources for urgent deliveries, guaranteed 2-hour pickup window.

18. Data Security & Privacy

18.1 Compliance with SOW Section 6.9, incident reporting protocols, BCP/DRP alignment.

19. Legal & Compliance Acknowledgement

- 19.1 Acknowledgement of KSA jurisdiction (SOW 3.6) and full compliance with laws.
- 19.2 Hala SCS commits to Tahakom supplier code of conduct covering anti-corruption, human rights, data privacy, and environmental responsibility.

20. Hala SCS Project Team Qualifications:

1. Michael Barber – Chief Executive Officer: Nationality: United Kingdom

Michael has a rich executive experience of over 30 years in Logistics & Supply Chain Management in Africa and MENA regions before joining Hala SCS in 2022 to lead its growth and development. Value delivery, customer intimacy and local content development are key focus areas for Michael.

Previous Experience: DB Schencker, Hellmann Worldwide Logistics

2. Amin Al Halabi – Chief Commercial Officer Nationality: Lebanon

Amin has over 18 years of extensive supply chain experience. He joined Hala SCS in 2024 to lead the Commercial function.

Leveraging his extensive experience in the shipping, freight forwarding, ports management, warehousing and distribution industries, to deliver innovative and customer-centric solutions.

Previous Experience: Kuehne + Nagel, King Abdullah Port, TIL.

3. Ra'ed Salem – Chief Operations Officer Nationality: Jordan

Ra'ed is a veteran logistics expert with a strong track record of driving operational excellence and innovation, leading cross-functional teams to implement strategies that enhance productivity, reduce costs, and elevate customer satisfaction. Proficient in project management and continuous improvement methodologies like Six Sigma and Lean, Ra'ed is dedicated to building strong stakeholder relationships and staying ahead of industry trends.

4. Yazan Darwish – Key Account Manager
Nationality: Jordan

Yazan has been actively engaged with NUPCO since 2018 and the first Western Region contract awarded to Hala SCS in 2019. Yazan utilizes his academic background in Industrial Engineering and his extensive experience in the KSA Supply Chain industry to create customer centric supply chain solutions.

Previous Experience: Aramex International Ltd.

5. Hattan Al Harbi – Quality Manager
Nationality: Saudi Arabia

Hattan is passionate about Quality Management and developed his career over 15 years in several Quality Control and Management positions in the FMCG and Healthcare industries. Hattan plays a key role in Hala SCS to ensure compliance to regulations and commitment to our customers.

6. Barea Iraqi – Health, Safety, Security and Environment Manager
Nationality: Saudi Arabia

Barea is a safety engineer with over six years of experience in risk management and safety compliance, primarily in the logistics and aviation sectors. He has successfully managed HSSE policies, safety audits, and emergency response plans for Hala Supply Chain Services. Barea holds a degree in Industrial Engineering and several certifications in safety management and occupational health.
